

Provisional Front Row for Robbie after a glorious day 1 at Silverstone

Robbie has provisionally qualified in 3rd Position for Sunday's race here at Silverstone.

Robbie started the day well, finishing 5th overall in free practice 1. However, knowing he needs to capitalise on his current form, he was in need of a good qualifying session.

"Today has been a great day, both for the weather and also out on track. It was a relatively slow start to the day with the 5th in FP1, but I changed a few things and managed to go 1 second faster in qualifying.

Its going to be real tough to pop it on pole tomorrow, but I feel that with a few changes to the bike, we can make this a possibility" commented Robbie

After a glorious day one at Silverstone today, Robbie will be hoping for the same conditions so that he can improve on his position on the grid.
